New Psychology Majors

The Faculty of Health have recently added three new majors to our Bachelor of Psychological Science across all campuses:

- Forensic Studies
- Child and Family
- Organisational Studies

Having majors to choose from gives students the opportunity to specialise in an area of interest in their chosen field.

Step On Campus Tours

Deakin's 'Step on Campus' tours program allows prospective students to visit Deakin University during Term 1 and Term 3 school holidays. Tours are for 45-minutes and led by a current Deakin student to allow you to explore university life, find out more about study areas of interest and gain a feel for your chosen campus. The 'Step On Campus' tours are running across all campuses and the April school holiday dates are as follows:

- **Melbourne Burwood** -
Wednesday 10th & 17th April
Times: 10am, 11am and 12pm
- **Geelong Waurin Ponds** -
Thursday 11th & 18th April
Times: 10am and 12pm
- **Warrnambool and Geelong Waterfront** -
Tuesday 16th April
Times: 10am and 12pm

To find out more and register your interest visit: <https://www.deakin.edu.au/about-deakin/events/step-on-campus>

Holmesglen Update

With two new campuses in Bourke Street, Melbourne and Drummond Street, Chadstone, Holmesglen are now offering more specialist training in Nursing and in Electrical and Telecommunications.

Their next open day (across all campuses) is on the 9th of May, so take a look at the various courses they have and visit this link for their open day details:

<https://holmesglen.edu.au/Students/Open-Days/>

RMIT Update

An Engineering degree for everyone

At RMIT's recent Career Practitioner's day, RMIT announced that from 2020 they will have two options for students entering their Bachelor of Engineering (Honours) degree. Students who have completed VCE Further Maths will be required to complete 'Intro to Engineering Mathematics' in Semester 1 and 'Engineering Mathematics' in Semester 2. However, students who have completed VCE Maths Methods or VCE Special Maths (or equivalent) will bypass these subjects and commence 'Engineering Mathematics' in Semester 1 and their chosen 3rd Elective in Semester 2.

Portfolio Preparation Workshops

RMIT are running some portfolio workshops for a number of their short courses in:

- 3D Production Design
- Design
- Fashion and Textiles Design
- Graphic Design
- Interior Decoration
- Visual Merchandising

These workshops are designed for students wishing to explore further study and work in these areas. Currently they are offering a 15% discount on these workshops so make sure you make contact with RMIT at:

<https://shortcourses.rmit.edu.au>

University of Melbourne

Update

Interested in Transport & Logistics?

Mainfreight, one of the world's largest transport and logistics companies are

hosting a small number of students for two mornings' to discuss the future career opportunities available in the industry. Mainfreight is made up of four departments; Air & Ocean, Warehousing, Transport and Supply Chain. This is a great opportunity for Year 10, 11 and 12 students to gain insightful information and make key contacts within this global company.

The morning will include guest speakers from various parts of the business and will be broken up into 3 different sections:

1. A site tour.
2. Understanding how Math's skills are utilised in the logistics industry.
3. Understanding how English skills are utilised in the logistics industry.

The details are:

Mainfreight Epping - Wed 7th August from 9am to 12pm.

<https://www.eventbrite.com.au/e/drive-your-career-from-the-floor-up-with-mainfreight-tickets-58037104542>

Mainfreight Clayton - Thurs 8th Aug from 9am to 12pm.

<https://www.eventbrite.com.au/e/drive-your-career-from-the-floor-up-with-mainfreight-tickets-57954158448>

Please note: You will need to register as soon as possible as places are limited.

A Career in the Snow

Educating Adventures (EA) have been in operation at over 30 resorts around the world for 10 years, providing school leavers with a great career pathway program.

EA are now taking applications for Ski and Snowboard instructor internship positions for 2019 and 2020 at all locations in Europe, the USA, New Zealand, Canada and Japan.

These instructor internships provide full training, accommodation, exams, lift passes and a guaranteed job offer at the end.

The program requirements are:

- Intermediate to advanced skiing or snowboarding ability.
- Genuine interest in snow sports.
- Positive attitude and good work ethic.
- Ability to work as part of a team.
- As of 18 years of age by November 2019.

Tertiary Information Service (TIS)

TIS is a collective of Universities, TAFE institutes and Independent Tertiary Colleges helping students prepare for future careers through free events around Victoria.

Each region in Victoria and Tasmania has a TIS event which every school in the local area is invited to. Attending your local TIS event is a great way for Year 12 students to pick up brochures and speak to recruitment staff from every university in Victoria, most TAFE's and some independent tertiary providers.

The first TIS event kicks off 26th – 28th of March in the Western District (Hamilton, Portland, Warrnambool, Camperdown & Colac) and information sessions will be running up until the weekend of 30th-31st of July in Tasmania. To view the full schedule and to find out more about your local TIS event please visit:

<https://www.tis.org.au/upcoming-events/>

Career Focus – Health (Speech Pathologist)

The Australian Government Department of Jobs and Small Business have reported that Audiologists and Speech Pathologists will have a 38.3% increase in projected employment growth in the next five years.

Speech Pathologists diagnose, treat and provide management services to people of all ages with communication disorders, including speech, language, voice, fluency, social communication and literacy difficulties. They also work with people who have problems with chewing or swallowing.

Speech Pathologists:

- Establish the exact nature and severity of each client's communication and/or swallowing problems, which may require the use of special equipment and tests.
- Plan and carry out treatment and management, taking into account age, social, educational and workplace needs and physical and intellectual duties.
- Prescribe electronic and non-electronic alternatives, and communication aides and devices.
- Work with children who are unable to communicate effectively due to the intellectual ability, developmental delays, physical disability and/or learning difficulties.
- Treat adults whose language, speech or voice has been affected by surgery, disease or disorders of the nervous system, brain injury, dementia or hearing loss.
- Help children and adults to overcome stuttering.
- Assess and treat children and adults who have difficulty chewing and/or swallowing.
- Act as a consultant to education, medical, dental and other health professionals.
- Provide ongoing support, advice and information to clients, families and other significant persons (such as friends, carers and educators) in order to support successful communication interactions and safe and effective mealtimes.
- Work closely with other health professionals as part of a team.

To consider this career, it is helpful if you –

- Have good listening and interpersonal skills
- Enjoy language and communication
- Are able to inspire confidence and cooperation
- Enjoy working with people
- Are patient and tactful in your approach to people's problems
- Are able to deal with complex and unusual situations.

To become qualified as a Speech Pathologist, you usually have to complete a degree in speech pathology at university. To get into these courses, you usually need to have completed your VCE with prerequisites (or assumed knowledge) in one or more of English, Biology, Chemistry, Physics and Mathematics. Graduates are eligible for membership of Speech Pathology Australia. Most employers require applicants for speech pathology positions to demonstrate that they are eligible for current practicing membership. For some employers, this is a mandatory requirement.

Speech Pathologists work in public hospitals, rehabilitation centres, community and mental health services, school's kindergartens and specialist organisations providing services for people with a disability. Speech Pathologists may also work in private practice and some are involved in teaching and research.

Below is a list of pathway, undergraduate and post graduate courses for future students in Victoria. You will note that LaTrobe University's 4-year course includes 1.5-year Master of Speech Pathology.

Institution	Campus	Course	Duration	ATAR
Pathway Course				
La Trobe College	Bundoora	Health Science – Major Study	8 months	NA
Speech Pathology				
Australian Catholic University	Melbourne	Bachelor of Speech Pathology	4 Years	65.25
Charles Sturt University	Albury-Wodonga	Bachelor of Speech and Language Pathology	4 Years	NA
La Trobe University	Albury-Wodonga	Applied Science/Speech Pathology: Bachelor of Applied Science: 2.5 years' minimum duration Master of Speech Pathology: 1.5 year minimum duration	4 Years	NA
	Bendigo			75.45
	Melbourne			86.85
	Mildura			NA
	Shepparton			NA
University of Melbourne	Parkville	Masters of Speech Pathology (Entry req: Degree in Science, Biomedicine, Education, Psychology)	2 Years	NA

Note:

* Length of study period is based on minimum duration with a full time study load. Part-time options may also be available.

* NA – Not applicable or less of 5 offers previously made. However, VCE English, Math's and other subjects may be required. Some institutions also require further admission testing on literacy and numeracy and a pre-training interview.

* ATAR is based on lowest selection rank with adjustment factors.

* As subjects, course structures and requirements can vary between institutions, it is necessary to contact your chosen institution for further information.
